12 September 2022

To whom it may concern,

It is my pleasure to confirm that **FENG QINGTIAN** has completed the Artificial Intelligence and Machine Learning Programme on 27 August 2022. The online programme was hosted by the School of Continuing and Lifelong Education in collaboration with College of Design and Engineering, National University of Singapore.

This programme helps university students from China foster professional skills and knowledge in artificial intelligence and machine learning. It involves a mix of thematic discussions and short practice sessions.

During the programme, this student fully participated in the online courses, demonstrating competencies in the areas assessed. (Please refer to Annex A for more information.) The student was a member of a team who presented a final project applying useful ideas and insights on the future of innovation and used the key concepts learned in the courses.

We wish the student the best for the future.

Yours Sincerely,

Professor Mehul Motani
Department of Electrical & Computer Engineering, College of Design and Engineering

Teaching faculty of **Artificial Intelligence and Machine Learning**
Hosted by School of Continuing and Lifelong Education in collaboration with College of Design and Engineering, National University of Singapore

Annex A

Programme Name: Artificial Intelligence and Machine Learning

Programme Dates: 23 July to 27 August 2022 (23 contact hours)

Hosted Online by: School of Continuing and Lifelong Education in collaboration with College of Design and Engineering, National University of Singapore

FENG QINGTIAN has successfully completed the online programme which comprised a series of lectures and discussions, as well as an individual assessment and team project covering Fundamentals of AI and the various types of machine learning algorithms. They also acquired skills and hands-on experience in applying AI and ML on real-world data using the Internet-of-Things as an example application.

Overall Grade: DISTINCTION

A fail is given when the participant has not met the programme's objectives. The participant missed to attend all courses, to show enough effort and achievement in both academic and teamwork sessions.
A pass is given when the participant has met the objectives and reached the expected outcomes. The participant has completed the whole programme, submitted projects in due time and showed sufficient understanding of each topic.
A merit is awarded when the participant has fully participated in the course, both in academic and teamwork sessions. The participant has taken part in a team project and has contributed to the presentation of the project.
A distinction is awarded when a participant has taken a leading role in the course, has been interactive and has demonstrated a high capacity to understand and converse in English. This is a special award for outstanding performance and an encouragement to others.

This programme was delivered in English online with 23 academic hours.
